Gorham, N. H., February 18, 1910.

Remarks by Selectmen.

We would respectfully call attention to several items in the foregoing report which will bear some explanation.

Under the department of "Notes and Interest Paid," there is about \$750 which represents interest paid on notes which have not been running a full year, but in order to make a uniform date, interest on all town notes has been paid to the end of the fiscal year, February 15, 1910, making no interest due on said date.

Under bills due from county, there was an item of \$33 paid to Malloy & Evans for fighting forest fires, which was not allowed by the county, they claiming no liability therefor.

In the matter of cash on hand, while the amount seems large, under the circumstances it seems to us that in consideration of the probable outlay for a new bridge over Moose river, state road, schools and various other matters of special import which will have to be paid before 1910 taxes will be paid in, that this amount is none too large; and in further view that money cannot be procured readily at less than 5 per cent., while all notes now outstanding have been reduced to the uniform rate of 4 per cent.

It is of the utmost importance that something should be done in regard to the Moose-river bridge as the same is in a very precarious condition, and it is our candid opinion that were it not for substantial propping, this bridge would hardly be able to support itself.

Respectfully submitted.

W. B. GATES,
GEO. E. NOYES,
THOS. W. HALEY,

Selectmen of Gorham.
